

# Julia McDaid

Technical Director - Kingspan Environmental

## Julia McDaid

**Queen's University of Belfast, PhD – Mechanical Engineering**

**Queen's University of Belfast, MSc - Polymer Science and Engineering**

**University of Ulster at Jordanstown, BEng - Manufacturing Systems Management**

Julia started her career as a Process Engineer for a Research and Development company, investigating new materials, technologies and providing technical support to a number of rotational moulding manufacturing facilities.

Julia is currently employed as the Technical Director for Kingspan Environmental (EMS) and manages a team of talented and experienced project, design and mechanical engineers. Her responsibility spans new product development, value engineering, product certification, new material and process developments, in a number of European markets.

If you obey all the rules, you miss all the fun.

- Katharine Hepburn
